

Cru Natural

The Cru natural cork is individually inspected and guaranteed to be TCA taint-free, making it another premium option for some of the most prestigious wines in the world. The Cru natural cork has gone through rigorous Cork Supply QC procedures and has been individually inspected for TCA by the Vocus technology.

Carbon Balance (kg CO₂ per thousand corks) | -530 to -300 ⁽¹⁾

100% of our natural corks are processed by the INNOCORK[®] and PURECORK technologies.

RELEASABLE TCA

Not quantifiable ⁽²⁾

100% inspected corks

STANDARD DIMENSIONS (MM)

Length - 38 / 45 / 49 / 54

Diameter - 24 / 25 / 26

AVAILABLE WASHES

⁽¹⁾ Scenario analysis for carbon sequestration in the cork oak 'Montado' vary between 7.7 and 14 ton (CO₂) / ha / year

⁽²⁾ Quantification limit 1.0 ng/L
